Comments: I strongly oppose this resolution based on the fact that it is a biased, reactive measure against HB1072 put forth by a special interest group, namely psychiatrists who year after year oppose legislation that would allow psychologists with advanced training in psychopharmacology to prescribe psychotropic medication. HCR 214/HR149 is a waste of taxpayer money and another "academic exercise" put forth to block HB1072 rather than do any potential good that it purports it will do.

Comments: This is an exclusionary tactic to try to undermine qualified psychologists from being able to prescribe psychotropic medications. It is a shameless effort of medical organizations to keep care for mental health disorders centralized in Oahu, a process that has already failed our outer island and rural Oahu areas. A collaborative relationship between psychologists and psychiatrists will not be facilitated by this resolution.
